

YouTube Videos (Ron McCain)

(2010-2021)

06/13/21

The following are YouTube videos created by Ron McCain during the 2010 – 2021 timeframe. Most are family videos that capture “journey through time” pictures and videos of Davenport, Reed, McCain, McBride, and Hodges family members of multiple generations, including reunions, birthday / graduation / anniversary / funeral tributes, and other events.

Many contain old pictures or videos from family collections of my parents and grandparents, often 50 – 100 years old of parents, grandparents, siblings, and other relatives. Some recent videos include MyHeritage Deep Nostalgia updates that repair, enhance, colorize, and animate old pictures.

In addition to the many family YouTube videos, there are travel videos from interesting vacations by Ron and Dolores McCain. There are also several videos related to my Tioga High School Class of 1965 graduating class, including class members, teachers, and deceased member tributes.

During the 2010 – 2021 time frame, 156 YouTube videos were created, with a total of 21,813 views.

The entire collection is accessible via a google search of “YouTube roncmac”. Specific keywords can be applied as appropriate to locate specific videos. In addition, any of the videos may be accessed via the YouTube Link shown below.
